

International Teachers University

For Teachers of Today and Tomorrow

President's Message

Dear Teachers of Today and Tomorrow,

In a world where education is the cornerstone of progress, a pressing challenge demands our attention—the global teacher shortage. According to the UNESCO Institute for Statistics (UIS), a staggering 69 million teachers must be recruited by 2030 to meet Sustainable Development Goal 4. This is not merely a statistic; it represents a crisis that jeopardizes the very foundation of our society. Without enough teachers, children and young adults are denied the chance to learn, grow, and reach their full potential. This is a global problem that transcends borders and touches lives worldwide.

International Teachers University's story begins with this realization. We recognize that overcoming the global teacher shortage demands more than just filling positions. It requires nurturing a new generation of teachers. At International Teachers University, we empower teachers, providing them with the means not just to survive but to thrive in their careers. Our vision lies in instilling foundational knowledge rooted in first-principle thinking, ensuring that teachers can adapt and evolve alongside the changing needs of the world. ITU's experienced international faculty and diverse student community enrich teachers' learning journey with a global perspective. Innovative teaching methods are born from this diversity, preparing teachers for today's and tomorrow's multicultural classrooms.

Moreover, our pedagogy goes beyond the conventional, delving into advanced teaching techniques that are tailored to meet the unique demands of modern education. Our commitment to providing top-notch education ensures that you receive a learning experience that is unparalleled. We don't just confer degrees; we serve as catalysts for your growth. We support you in advancing your career and achieving your professional aspirations. We facilitate an environment where your passion for teaching is nurtured, your skills are honed, and your potential is fully realized.

Together, we can enhance the quality of teaching on a global scale and usher in an era of educational excellence. Let us continue to innovate, inspire, and educate. By doing so, we are not only shaping the future of education but also actively working towards resolving the global teacher shortage, one empowered teacher at a time.

Warm Regards

Welcome to International Teachers University

Where Your Aspirations Meet World-Class Education

International Teachers University (ITU) was established to deliver world-class education for highly effective teachers and teaching aspirants. Our mission is to equip teachers with the skills and knowledge they need to advance their careers and thrive in the 21st-century classroom. We envision a future where teachers are at the forefront of educational excellence, making teaching an aspirational profession.

The focus is on elevating teacher education through innovative pedagogy to ensure that our teachers stand out among the global teaching workforce.

ITU serves as a pioneering platform for teachers to emerge as

Education Leaders

Multi-Curricular Experts

Impactful Mentors

International Teachers University is approved to offer degrees by the Higher Education Licensure Commission in the District of Columbia.

Why is ITU Exclusively for Teachers?

Teachers, the architects of our future, shoulder the profound responsibility of shaping both minds and society. Such a vital role demands an unwavering commitment to their continuous professional growth and development. This commitment is precisely why International Teachers University (ITU) proudly stands as a dedicated institution exclusively for teachers.

Traditionally, conversations about teacher education have mainly been focused on how students perform. At ITU, we change this perspective to emphasize the well-being and satisfaction of teachers. This allows teachers to connect more deeply with their profession and find fulfillment in every class they teach.

The Numbers Speak

Key Education Challenges

53%

US Public schools were understaffed in 2022-23

(Source: School Pulse Panel, USA)

55%

Teachers in US plan to exit the profession earlier than planned

(Source: Survey by the National Education Association, USA)

69 Million

New teachers are needed globally to meet the 2030 educational goals

(Source: UNESCO Report)

When examining these statistics, it becomes evident that innovative solutions are urgently needed. ITU addresses these challenges at the core through enhanced teacher education and has developed concrete strategies to tackle them.

What sets ITU apart?

The foundation of ITU is built on these key elements that shape its exceptional approach to teacher education:

First Principle Thinking

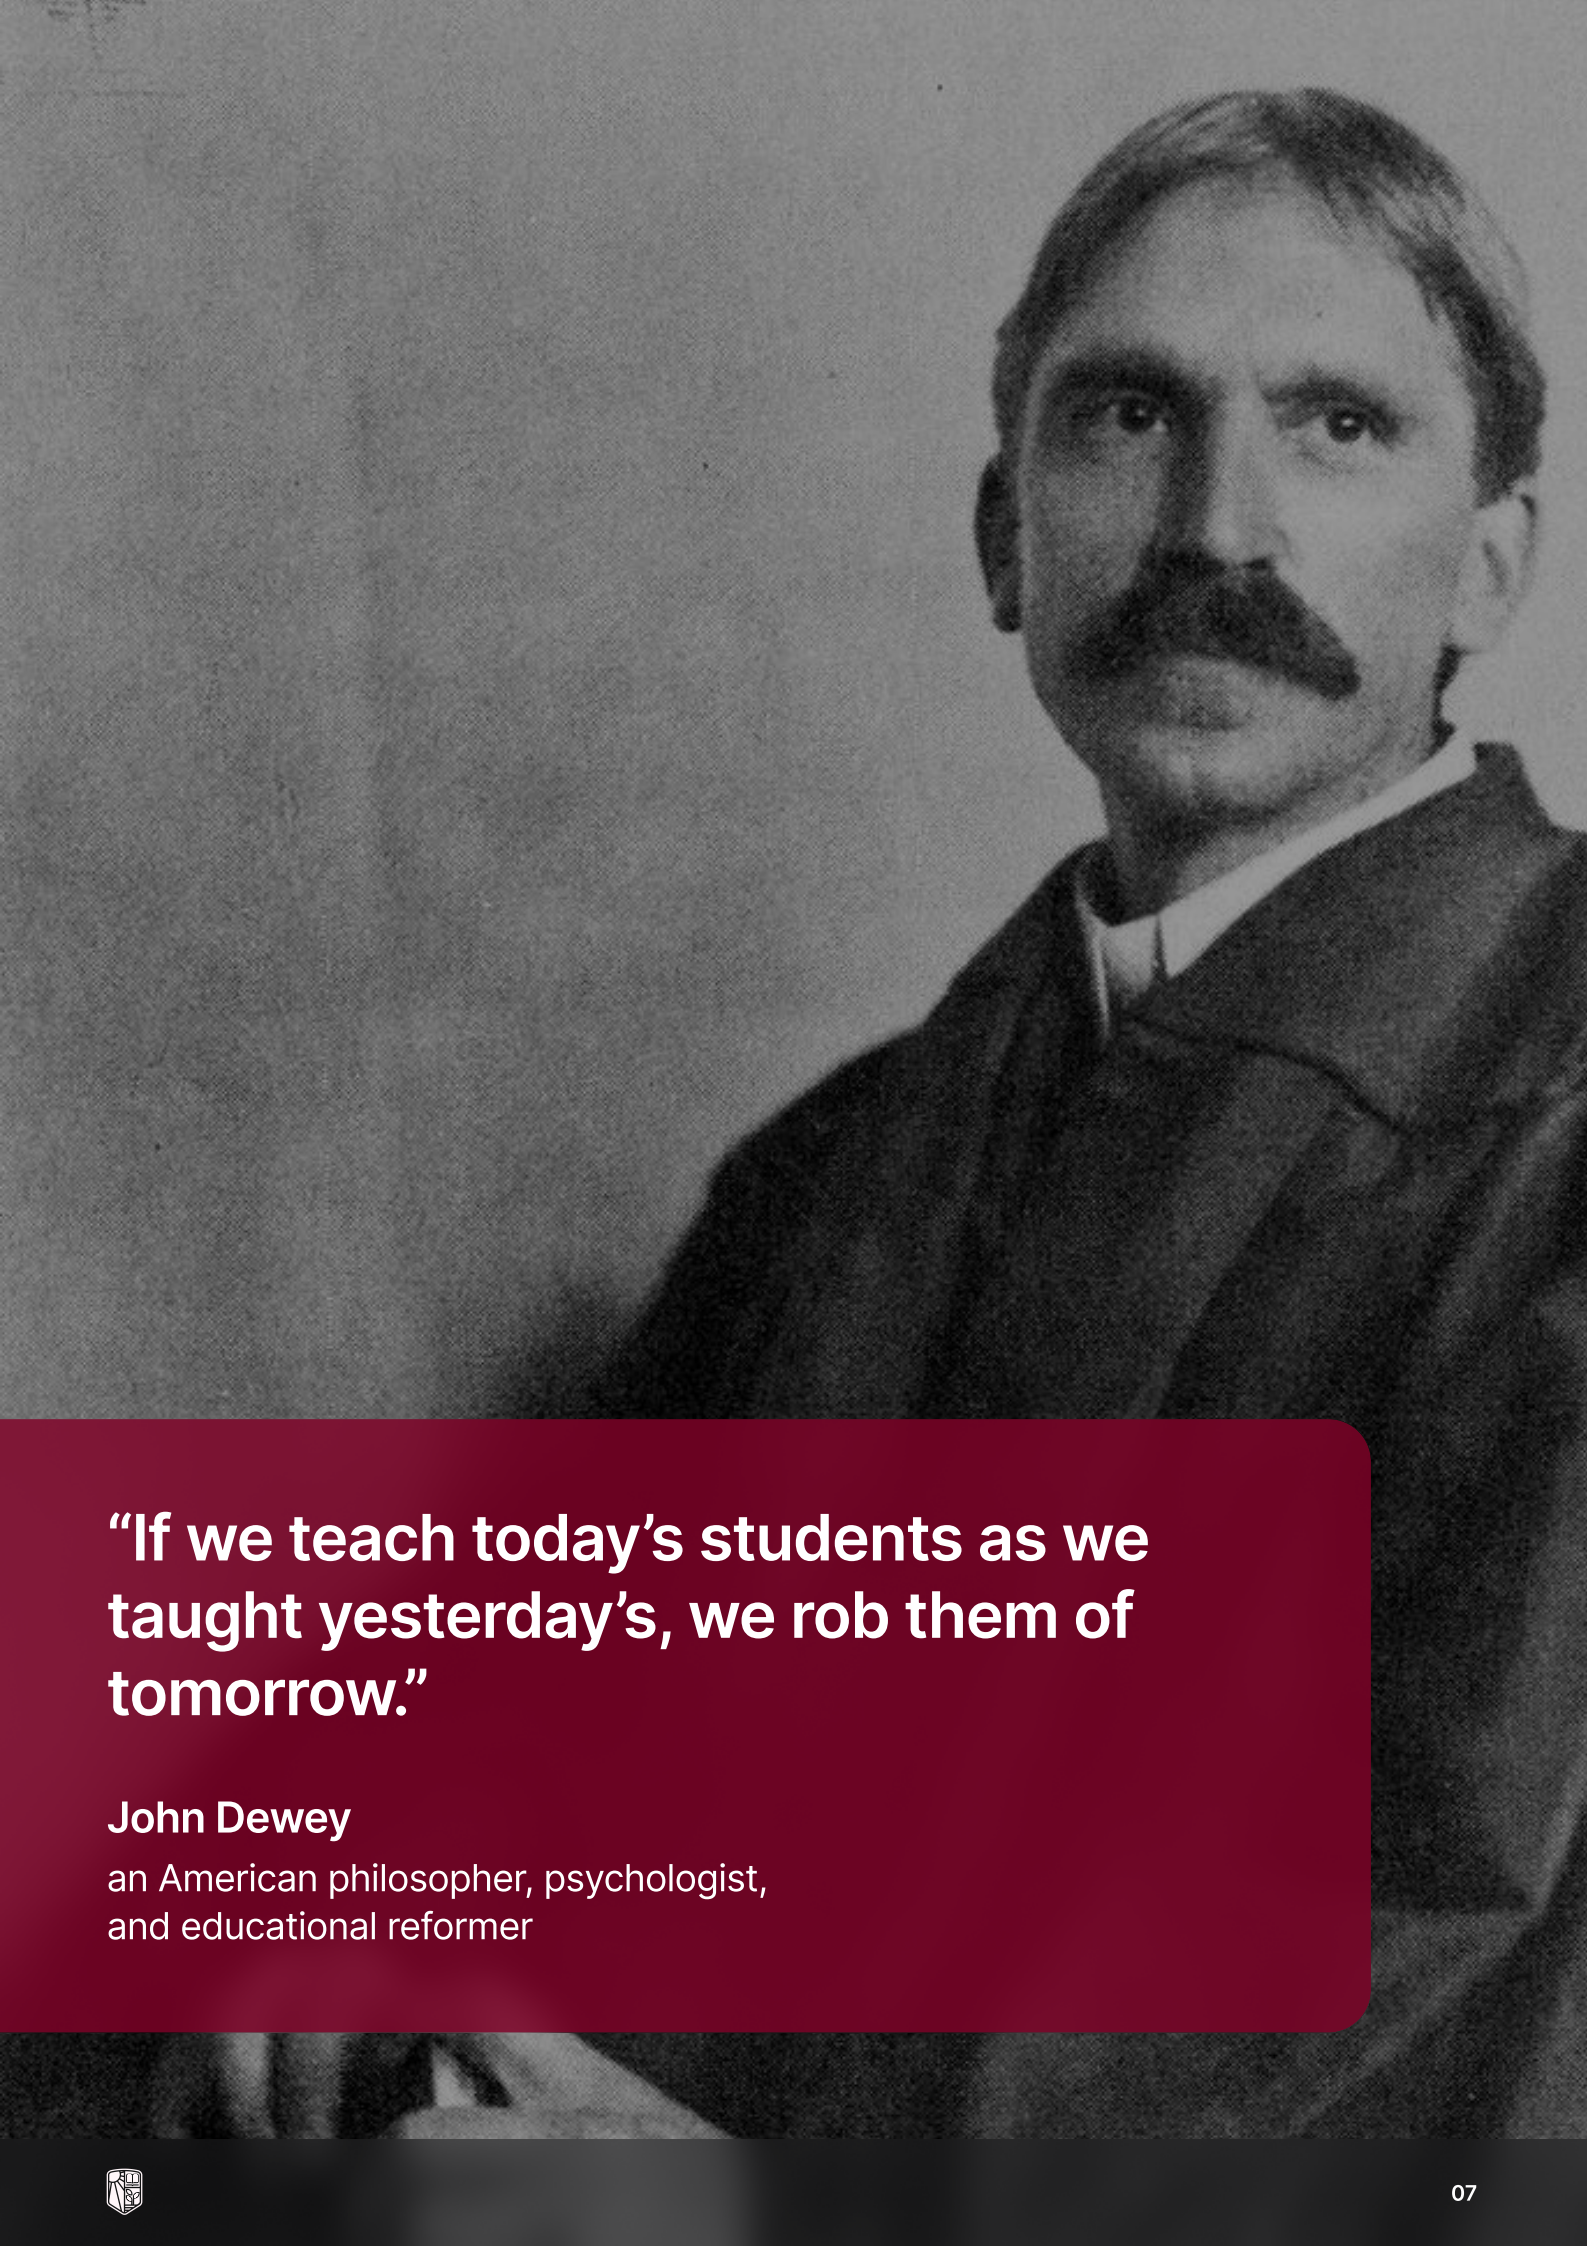

In an ever-changing educational landscape, adaptable teachers are a necessity. At ITU, we equip teachers with foundational principles to thrive amidst technological shifts. Our curriculum, grounded in these first principles, **empowers teachers to navigate change** seamlessly, applying core pedagogical concepts to their unique teaching situations. As we step into the future, ITU ensures that teachers are prepared well to embrace the unknown and **equipped with the skills to deal with any challenges** they may face.

Global Relevance

In a globalized world, education transcends borders, and teachers require skills that make them internationally competitive. At ITU, we recognize the need for teachers who can **excel in the global education landscape**. We address it by delivering **education aligned with international standards**, preparing teachers for success.

A Truly International Experience

In an increasingly interconnected world, teachers must be ready to engage with students and colleagues from diverse global backgrounds. At ITU, we address this need by delivering a genuinely international experience. With **teachers from around the globe** and an **internationally experienced faculty**, we cultivate an environment that promotes cultural understanding, diverse perspectives, and cross-border collaboration

“If we teach today’s students as we taught yesterday’s, we rob them of tomorrow.”

John Dewey

ITU's Impact on Teacher Careers

International Teachers University (ITU) equips you for a future where the possibilities are limitless. Here are some of the remarkable career outcomes to aim for:

Skills for Leadership Roles

Cultivate the skills needed to guide classrooms, departments, and entire educational establishments, shaping the next generation of teachers.

Higher Job Satisfaction

Experience profound job satisfaction as you implement innovative teaching strategies and easily adapt to the changing technologies.

Expertise in International Curricula

Attain a broad international perspective that goes beyond specific subjects and curricula, allowing you to apply your knowledge universally and excel in diverse contexts.

Opportunities for Career Advancement

Acquire a competitive edge with ITU, paving the way for promotions, specialized roles, and opportunities for further professional growth and advancement.

21st Century Classroom Readiness

Gain expertise in contemporary educational tools, ensuring you are prepared to manage a classroom full of Gen-Z and Gen-Alpha students.

As an ITU graduate, you're not just a teacher; you're a trailblazer, shaping the future of education and making a lasting impact in the lives of your students.

Every year the world advances,
Classrooms evolve,
Technology changes,
Smart teachers adapt.

**If you must, what do you choose-
to lead the way or to be left behind?**

Teachers from Around the Globe

The Master's in Education program at ITU is more than an academic pursuit. It's a platform where you meet an international community of passionate teachers and forge meaningful connections through:

Collaborative Learning

Engage in peer-to-peer interactions through online forums and in-class discussions designed to foster an exchange of ideas and perspectives.

Global Teacher Network

Connect with teachers worldwide, share innovative approaches, and learn from diverse pedagogies.

Exchange Programs

Immerse yourself in diverse educational landscapes through exchange programs and gain a profound understanding of international education.*

*Available in select countries

Soon, classrooms will have learners from various backgrounds and countries.

Are you ready to create an inclusive environment while following international standards?

A Master's Degree on Your Terms

ITU's M.Ed. program allows you to craft your learning journey on your terms, granting the freedom to balance work, personal life, and further education effortlessly.

Seamless Online Learning

The program is 100% online, ensuring flexibility and access to quality education from the convenience of your own home.

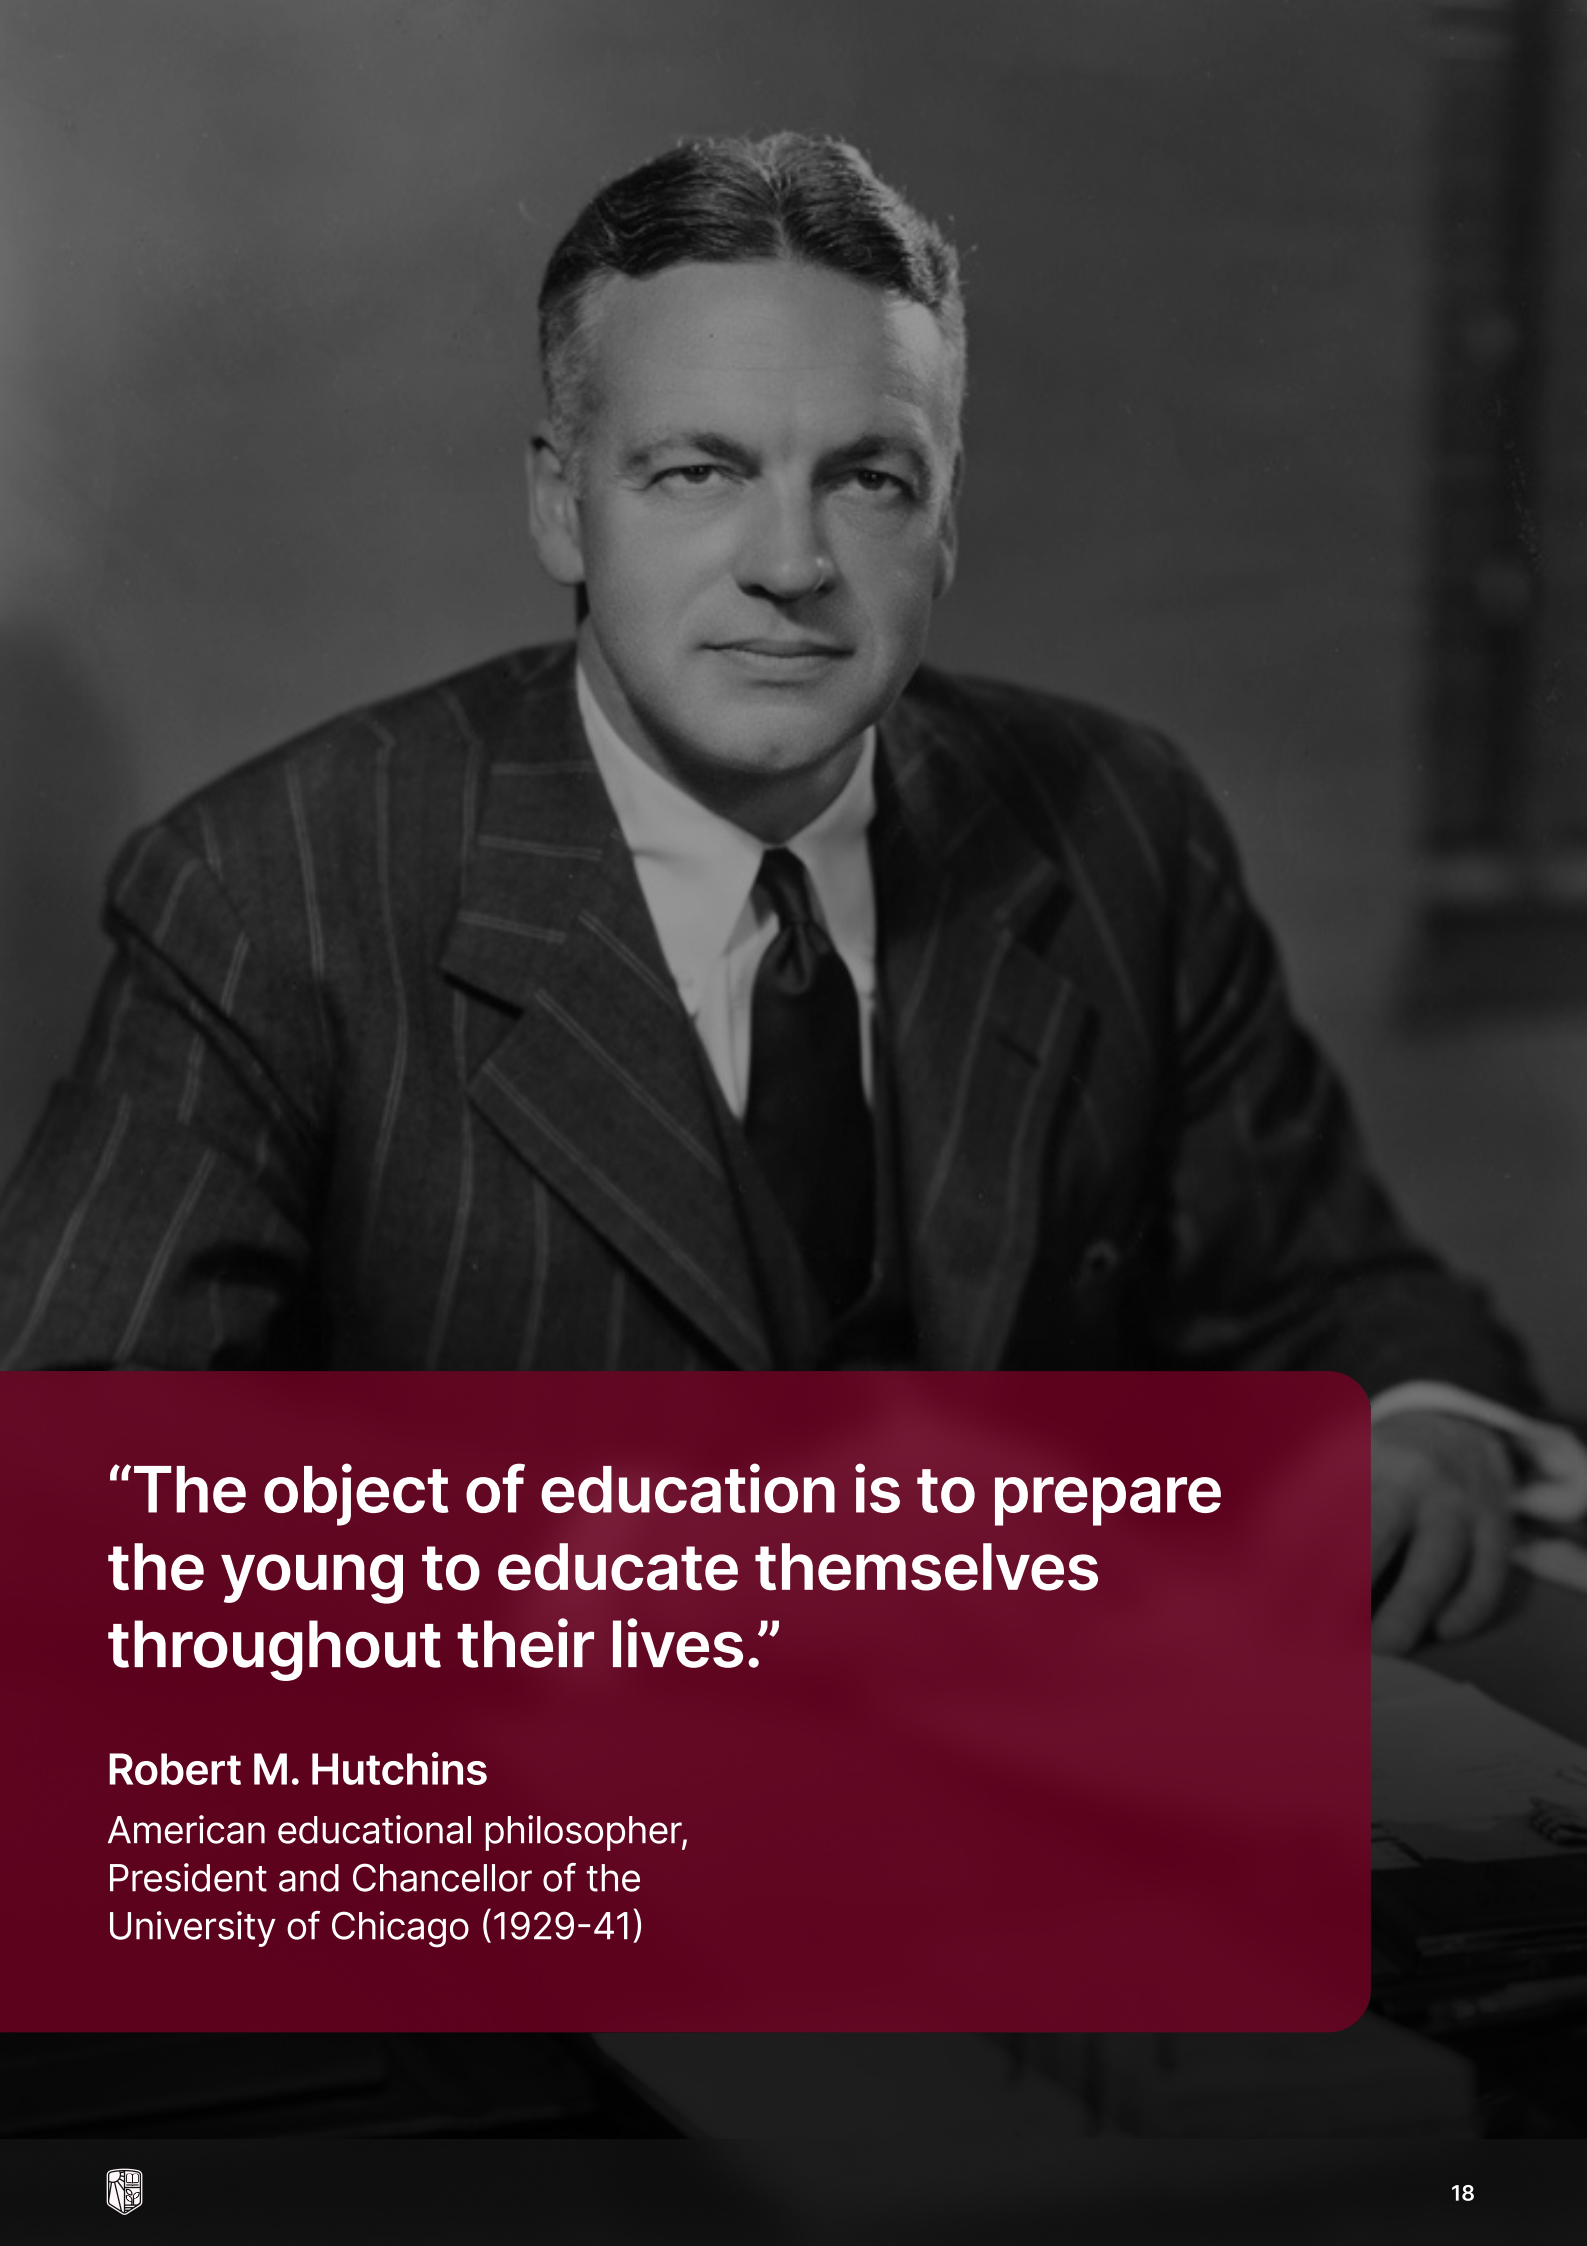

Hybrid Delivery

The program blends live weekend classes for real-time interaction with self-paced online learning during the week, offering a balanced learning experience tailored to your schedules and preferences.

Rolling Admissions

The program operates on a non-traditional schedule, allowing you to start the course at various times and granting the freedom to learn at your own pace.

“The object of education is to prepare the young to educate themselves throughout their lives.”

Robert M. Hutchins

American educational philosopher,
President and Chancellor of the
University of Chicago (1929-41)

Aligned with International Teaching Standards

Program Curriculum

The program curriculum is deeply grounded in a skill framework meticulously honed through comprehensive research into top global education systems. It equips you with 21st-century pedagogy that transcends subjects and curricula, making your expertise universally applicable.

The Master's in Education degree is a 12-month program encompassing ten (10) courses.

Core Pedagogy Courses (8)

Designed to equip you with advanced pedagogical skills

ED 501 Advanced Instructional Strategies	Explore learning theories, devise effective teaching strategies, and empower students in conceptual knowledge.
ED 502 Advanced Questioning Skills and Techniques	Enhance questioning techniques, focusing on knowledge-based evaluation and measurable thinking skills.

Behind every great teacher, there's a great mentor shaping futures with wisdom and inspiration.

Learn from Experienced International Faculty

ITU programs offer a remarkable opportunity to learn from prominent educators who collectively bring over a century of rich teaching experience. Their diverse experiences encompass various educational roles across 10+ countries, ensuring that learners like you benefit from a wealth of international expertise.

At ITU, we believe you should learn from the very best to transform into the best teachers.

Michael Bartlett

Master's in Educational Leadership, Wayland Baptist University (Texas)
20+ years of experience as Principal, Curriculum Head, and Teacher around the globe

Mr. Bartlett's academic background in Educational Leadership, combined with his significant tenure in leadership positions, uniquely positions him to guide ITU's teachers toward success in the changing educational environment.

Ashkelon Govender

Ph.D., Educational Leadership & Management,
University of Kwa-Zulu Natal (South Africa)
10+ years of work experience in the education sector

Dr. Govender's Middle Leadership roles in Kuwait and the UAE provide invaluable insights into diverse educational systems, uniquely preparing him to mentor ITU teachers for global success.

Peter G. Beckway

Master's in English Literature, University of Illinois (Chicago)

21+ years of experience working across Saudi Arabia, UAE, China, and Korea

Mr. Beckway's diverse and multi-dimensional teaching experience equips him with a deep understanding of the global educational dynamics that ITU graduates are likely to encounter.

Zeina Al Deeb

M.A. in Education (TESOL), Lebanese American University (Lebanon)

10+ years of experience as a teacher and university instructor

Ms. Al Deeb's expertise in language education and diverse experience make her an invaluable mentor for ITU graduates, enriching teachers' growth and development.

Sidra Nauman

M.Ed in Early Childhood Education, University of Dundee (United Kingdom)

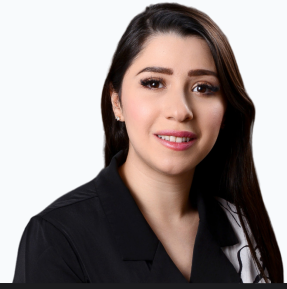

25+ years of work experience as a coordinator and teacher trainer

Ms. Nauman's vast experience across various global institutions uniquely positions her to guide ITU teachers with a specific focus on early childhood education and professional development.

Ola ElKhatib

Master's in Educational Studies, University of Wollongong (Australia)
8+ years of work experience as a teacher and teacher trainer

Ms. ElKhatib's expertise in curriculum development, pedagogy, psychology, leadership, and teacher training equips ITU graduates with a well-rounded understanding of education in the modern world.

Rushini Ramachandran

M.Ed. in Advanced Teaching, University of the People (California)
10+ years of work experience as a teacher

Ms. Ramachandran's diverse educational background and teaching exposure spanning Indonesia, the Democratic Republic of Congo, and the Philippines empower ITU's graduates with a well-rounded perspective, valuable for their future careers.

A photograph of a classroom or lecture hall. In the foreground, several students are seated at desks, viewed from behind. They are looking towards the front of the room. One student in the middle ground is using a laptop. In the background, a male teacher is standing and facing the class. The room has large arched windows with black frames and white shutters. The ceiling has recessed lighting. A red banner is overlaid at the bottom of the image.

**Are you ready to join the ranks of the
best teachers and learn from our
esteemed international faculty?**

Your Journey Through the Program

When you embark on your M.Ed. journey at ITU, you'll discover a world-class learning experience designed to make you a Master of Education. Here's a glimpse of what awaits you when you join our program:

Advanced Pedagogy Lessons

Learn with a mix of synchronous sessions (live instructor-led lectures) and asynchronous sessions (recorded lectures), allowing you to tailor your learning to your schedule.

Comprehensive Assessments

Learning progress and growth are continuously assessed through a variety of assessments, including pre-course, in-course, and end-of-course evaluations.

Skills Portfolio

Create your skills portfolio with meticulously evaluated assignments, demonstrating the development of your teaching skills and competence.

Case Studies and Projects

Gain practical insights by diving into real-world scenarios with case studies. Engage in collaborative projects designed to foster an exchange of ideas.

Upon successful completion of the program, you will be awarded-

1

A prestigious Master's degree approved by the Higher Education Licensure Commission, DC.

2

An official transcript to validate your academic achievements.

As an ITU student, you are never alone - our dedicated Student Support Services Team is your constant companion throughout your academic journey.

Holding Your Hand as You Navigate Academics, Career, and Beyond

Student Support Services

Our comprehensive Student Support Services ensure you have the guidance and resources necessary to thrive as an empowered teacher.

Academic Advisory

Throughout your program, our academic advisors provide unwavering support. From deciphering program requirements to understanding assessment methods, we are here to ensure your academic success.

Career Advisory

Our career advising team is committed to helping you find the right professional path and achieve your career goals even after you graduate. From skill development to profile building, we're dedicated to your career advancement.

Online Student Community

Our online student community fosters engagement and collaboration among students from around the world. Here, students with diverse backgrounds and unique experiences come together and collaborate, adding depth to the learning experience.

Library and Learning Resources

Our collaboration with the Library and Information Resources Network (LIRN) ensures our students have easy access to online resources anytime, anywhere. We provide educational materials from preschool to college and across specialties.

A young boy in a light green shirt is wearing a VR headset and has his right hand raised high in the air. He is sitting at a desk in what appears to be a classroom or computer lab. In the background, another student is also wearing a VR headset. The room has large windows and computer monitors on desks.

Navigating change is more than just keeping up. It is about staying relevant and impactful.

Are you prepared to be part of this change?

Pathway to Join the ITU Cohort

At ITU, we are cultivating an international community of dedicated teachers. Our Admission Process is designed to be highly selective, ensuring that only the most passionate teachers join the institution.

- 1 Check Your Eligibility:** Connect with our admissions officers to explore your aspirations and suitability for our programs.
- 2 Submit the Online Application Form:** Complete the online application form to officially initiate your admission process.
- 3 Prepare for the Virtual Interview:** Your application will be meticulously evaluated, and successful candidates will be invited to the interview round.
- 4 Receive Admission Letter:** Upon clearing the interview, you'll receive an official admission letter confirming your place in our upcoming cohort.
- 5 Secure Your Admission:** Complete the necessary formalities and submit admission documents and fees to join the Top 1% of teachers from around the globe at ITU.

Scholarships and Financial Aid

School Nomination Grant for Advanced Studies

International Teachers University offers a School Nomination Scholarship for teachers wishing to pursue a Master's in Education (M.Ed.) degree. This grant aims at recognizing exceptional dedication to the teaching profession and facilitate further education.

Criteria

Teachers nominated by ITU Partner Schools receive scholarships, benefiting both the teachers' professional development and the school's educational quality. Teachers can explore this scholarship opportunity with their schools, encouraging them to become ITU Partner Schools.

Amount Awarded

Recipients receive a scholarship grant of \$300-\$600 toward admission into the Master's in Education program.
