

Suraasa Hire

Suraasa Hire helps U.S. school districts hire international teachers who are classroom-ready, culturally aligned, and prepared to succeed from day one.

How We Ensure High Teacher Quality

Every teacher presented through Suraasa Hire is evaluated using our proprietary **International Teacher Readiness Framework (ITRF)**, our internal quality standard for determining true readiness for U.S. classrooms.

Teachers are evaluated across **six non-negotiable readiness parameters:**

01 Attitude

Professionalism, adaptability, and readiness to handle classroom challenges

02 Presentation Skills

Communication clarity, English proficiency, and classroom presence

03 Internationalism

Cultural awareness, contextual adaptability, and effective use of technology

04 Pedagogy

Lesson planning, delivery, classroom management, and assessment practices

05 Subject Knowledge

Depth of content knowledge aligned to curriculum expectations

06 Regulatory Readiness

Teacher credential mapping & evaluation, background verification, safeguarding, J1 visa requirements and compliance readiness

What this means for your district:

You interview only teachers who have already cleared a rigorous quality bar, resulting in lower hiring risk, better fit, and stronger early performance.
